Mrs. Margaret Smith died Sunday at her home at Quincy Lewis county, aged 85.

Representative G. T. Reynolds of Bracken county proposes to put "basing" in the schools and colleges of Kentucky on the "kibosh," for he has introduced a drastic measure at Frankfort against the practice, fixing a fine of from \$10 to \$100, and imprisonment in jail from one month to one year, or both, for each offense. The author of the bill says the enactment and enforcement of such a law will do more to break up the pernicious practice than all the expulsions and certain lectures that ever happened. He will make a strong fight for its passage.

Causes 95 per cent of
Diseases
Advice Concerning Stomach
Troubles and How to
Remedy Them

Do not neglect indigestion, which leads to all sort of ill and complications. An eminent doctor once said that ninety five per cent. of all the ill of the human body have their origin in a disordered stomach.

A physician who made a specialty of stomach troubles, particularly dyspepsia, after years of study perfected the formula from which Rexall Dyspepsia Tablets are made.

My experience with Rexall Dyspepsia Tablets leads me to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in pepsin, one of the greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistency and regularly for a short time brings about a cessation of the pains caused by stomach disorders.

Rexall Dyspepsia Tablets will insure healthy appetite, aid digestion and promote nutrition. As evidence of my sincere faith in Rexall Dyspepsia Tablets, I ask you to try them at my risk. If they do not give you entire satisfaction, I will return to you every cent you paid me for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1. Remember you can obtain them only at my store—The Rexall Store. Thos. J. Obenoweth.

OLD PEOPLE FEEL THE COLD KEENLY because their blood is thin, sluggish and watery. There is not the same renewal of strength that constantly goes on in youth. Vinol is the ideal blood tonic and strength maker of old people. It creates an appetite, promotes digestion, enriches the blood and invigorates the entire body. John C. CLEARLY ILLEGAL ACT

Action of Judge Corn Caused Decided Sensation

At Manchester, O., Judge Corn of the Adams County Common Pleas Court, a few days ago gave a divorce to Mary Curry from Charles Curry. The next day Mrs. Curry was married to John Lock, widower. Charles Curry produced a license to marry Annabelle Messer, a widow, of Cincinnati, who was co-respondent in the divorce case.

Judge Corn took violent exceptions to the hasty wedding, and issued an order revoking the licenses of both Curry and Lock.

Owing to the prominence of the parties and the complications, the case has caused something of a sensation.

HOLLINS INSTITUTE

The Scarlet Fever Situation There Now Under Control

The scarlet fever situation at Hollins Institute, Virginia, is under control.

Miss Margaret Nevins of Birmingham, Ala., room mate of Miss Annabelle Lewis of this city, died of the dread disease, but there have been only two other cases—one, a young lady from Norfolk, Va., who contracted the disease during the holidays, and one other pupil who took it from Miss Nevins.

Much anxiety was felt for Miss Annabelle, as she was with Miss Nevins before she was taken to the infirmary, having returned three days previous to her illness, but everything was done to prevent contagion and the time limit, being passed, all anxiety is at an end.

This is the first death at Hollins in five years, and 'tis hoped that it will not be long before school work will again be resumed, as the Board of Health has thoroughly disinfected premises, and declared the place perfectly sanitary.

Beware of Outlets for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. For sore throat, sharp pain in lungs, tightness across the chest, hoarseness or cough, have the parts with Sloan's Liniment. You don't need to rub, just lay it on lightly. It penetrates instantly to the seat of the trouble, relieves congestion and stops the pain.

Here's the Proof.

Sloan's Liniment

is easier to use than porous plasters, acts quicker and does not clog up the pores of the skin.

GREAT EXCITEMENT AT NEWARK, OHIO

It is Coming to Maysville Next Saturday Morning

Hundreds of people of Newark are greatly excited over the many remarkable cures that are being made at that point by the new discovery known as Root Juice. Many that suffered for years with some chronic ailment, after taking the juice a short while claim an absolute cure. Testimonials of local people whose word cannot be doubted are being published by the hundreds, and for the past few weeks people have been going in crowds to Newark to get some of the great medicine. The druggist said that he never saw anything like it. Out of all of the hundreds that tried it not a single complaint has been heard but many said the first few doses of the juice created marked improvement. The scientist was invited to send his discovery here. The demonstrations will be conducted at J. James Wood & Son's Drugstore and will begin next Saturday. The remedy heals and tones the stomach, bowels, bladder, liver and kidneys. It soon creates a good appetite and stops the food from fermenting in the stomach and bowels. Then good healthy blood is made to build up the wasted tissue and feed the weakened nerves. It makes rapid cures of rheumatism, indigestion, constipation, kidney troubles and nervousness. It is \$1 a bottle. Three bottles for \$2.50.

TRANSPORTATION IN OHIO VALLEY TO BE REVOLUTIONIZED

By Pittsburgh and Cincinnati Trolley Line—467 miles of Electric Trunk Line on North Side of Ohio River

R. H. Oarsler of St. Louis was a caller at this office Wednesday morning, says The Portsmouth Blade. He is a right of way man for the Cincinnati, Pomeroy and Pittsburgh Street Railway Company, and is much full of enthusiasm over the prospect of work soon beginning on the mammoth line. He will go to Pittsburgh January 20th, at which time a meeting of stockholders will be held. Arrangements will be put under way looking to an early start all along the line in the early spring.

The line which will be 467 miles long will be divided into two divisions, the Cincinnati-Pomeroy and the Pittsburgh-Pomeroy. Each of these divisions will in turn be divided into a number of sections for convenience in construction work. Something like eighteen power-houses will be required, the average distance between them being about 25 miles. The entire right of way, with the exception of the route through Ripley, has been secured, and the Council there will grant that at an early date. The Company has acquired the Cincinnati and Eastern Interurban Line, twenty miles long, which gives them an inlet to the heart of Cincinnati, the other terminus being New Richmond. When actual construction work begins in the spring, Pittsburgh on one end and New Richmond on the other, as well as many way points, Mr. Oarsler believes that one of the first gaps to be closed will be the one between Scottdale and Hanging Rock.

The road will be a trunk line and do not only through and local passenger and freight business, but mail and express business as well. He believes that the limited trains will make a schedule of fully forty miles an hour. According to the conditions agreed to in the right of way articles, the work must be begun in a year and completed in three. E. A. Cox of Huntington is the promoter, and a number of capitalists of National reputation are said to be back of him.

THE PUBLIC LEDGER is pleased to thank Prof. John G. Crabbe, the tireless and intelligent Superintendent of Public Instruction of Kentucky, for his "Kentucky School Report for 1908-1909." The volume contains in all about 800 pages, with maps, tables, illustrations, facts, figures and various other general and timely information, which, collectively, make it the most useful and valuable work as an educational report ever issued by a State Superintendent. Prof. Crabbe's report is worthy of a permanent place in every library in Kentucky. It does not alone contain dry facts and figures, but is a digest of modern education with just enough of tree and the bird and the flower to make it enticing, and shows the wonderful progress our State has made in two short years under the progressive and brilliant management of one of the best, if not the best, Superintendents of instruction, Kentucky has ever had.
